MEMORANDUM FOR: Chairman, EXSUBCOM

SUBJECT : FY 1971 Basic Exploitation Program

REFERENCE : COMIREX Memorandum [ ] (21 July 1970)

25X1

1. The NPIC is in receipt of the requirements for the NTP Functional Areas listed in the referenced memorandum and these have been assigned within the Center for action.

2. So far, we do not anticipate any difficulty in fulfilling these requirements. The requirements for the following NTP Functional Areas are not yet received:

- C - Deployed Commo/Elec/Radar Facilities
- O - Atomic Energy Facilities
- U - Commo/Elec/Radar R&D Facilities

Early approval of these Functional Areas, as well as outstanding requirements in the areas assigned to other agencies, will aid the NPIC in planning a balanced production effort throughout fiscal year 1971 in addition to determining its capability to fulfill its portion of the FY 1971 Basic Exploitation Program.

3. The Center will advise the Chairman, EXSUBCOM as early as possible of any problems (scheduling deadlines, priorities, etc.) if and when they develop in order that the specific requirement(s) can be re-evaluated by the EXSUBCOM.
